

DIGITAL FORENSICS

In an increasingly digital and connected world, digital forensics becomes an essential aspect of litigation. Digital forensics is the investigation and recovery of information from computers, phones, and other storage server media.

DIGITAL FORENSICS EXPERTS

Legal Eagle employee Heather Cortez is a Cellebrite Certified Operator. Heather has been trained by Cellebrite to extract data in a forensically sound manner. Heather and our other Legal Eagle digital forensics experts, are able to extract information in a legally defensible manner from most:

- computers
- cellphones
- servers
- hard drives
- emails
- tablets

The information may then be sent directly to the legal team or uploaded to an eDiscovery review platform.

Additionally, Legal Eagle offers a third party digital forensic examiner. This forensics expert may find crucial hidden information on disc drives, mobile phones, and hosted servers, as well as on email servers, cloud servers, ram memory chips, voicemail, text messaging, and even on camera memory cards.

REQUIRED EXPERTISE

The digital forensics experts works within the framework of court rules to identify, recover, preserve, and analyze for use by an attorney in litigation.

DISCOVERABLE

Evidence found using digital forensics is typically discoverable and authenticated for presentation to the jury in South Carolina state and federal courts.

REQUIRED EXPERTISE

The digital forensics experts works within the framework of court rules to identify, recover, preserve, and analyze for use by an attorney in litigation.
